

LEARNING JOURNAL

Name: Sam Symon S. Gonzales
 Date Started: June 22, 2026
 Date Finished: June 26, 2026
 Number of Hours: 41 Hours

Department	Activity/Assigned Task
IT DEPARTMENT	• Monday, June 22, 2026 – I was on site and performed disk cleanup and troubleshooting on a slow computer by clearing temporary files, checking disk health, and running the “chkdsk /r” command to repair disk errors, then assisted in organizing the work area and purchasing office supplies while waiting for the repair process to finish. • Tuesday, June 23, 2026 – I was on site and checked the overall health of the computer, scanned for viruses and corrupted system files, took Minutes of the Meeting (MOM) during discussions, and later deployed the repaired system unit while verifying that it was functioning properly. • Wednesday, June 24, 2026 – I worked from home and reviewed GitHub workflows, practiced pull and push commands, and performed minor coding tasks such as configuring usernames, checking password logic, and fixing small errors in the system. • Thursday, June 25, 2026 – I was on site and performed printer troubleshooting, participated in an earthquake drill, and resolved an issue involving a missing Excel file caused by a file-specific error. • Friday, June 26, 2026 – I worked from home and focused on improving and managing the User Interface (UI) of the IHC Web System.
